### **PRESS RELEASE**

locus Athens, in collaboration with the Greek publishing house Kaleidoscopio, have just produced the first two in a series of children's books aimed at bringing Greek art to a young audience. Tracing Greek art from contemporary creations right back to the 19<sup>th</sup> Century through themes like food and animals, locus athens believes the books, which are full of ideas for DIY projects at home or in the classroom, will be a source of fun and learning for both kids and adults.
